# IDATA - ACT24 Respondent Person: Data Dictionary

## Section 1: Identifiers

---

Variable	Label	Description	Format Text
<b>iid</b>	IDATA ID	IDATA ID	Char
<b>build</b>	Build	The date that the programs were last run, stored as a SAS date.	SAS Date
<b>has_act24_data</b>	Has Data for Any Task	<p>Indicates if the participant has any ACT24 data.</p> <p>Participants set to "yes" have data for at least one task, including 5 minute records and the summary data used to build the respondent files. Participants set to "ACT24 tracking record only" have a tracking record that says they began an ACT24 attempt, but do not have any ACT24 data. Participants set to "no" are in the overall iData population, but have no ACT24 data and did not begin an ACT24 attempt.</p>	0="No" 1="Yes" 2="ACT24 Tracking Record Only"

## Section 2: Response Summary

Variable	Label	Description	Format Text
<b>fstcomp_maxsessionlen gth_minute</b>	Maximum Session Length Across the First Complete Attempt for Each Task	<p>Maximum session length for this participant.</p> <p>This maximum only considers sessions from the first complete attempt at each task, not sessions from incomplete attempts or additional attempts for already completed tasks.</p>	Numeric .N="Not Applicable"
<b>fstcomp_minsessionlen gth_minute</b>	Minimum Session Length Across the First Complete Attempt for Each Task	<p>Minimum session length for this participant.</p> <p>This minimum only considers sessions from the first complete attempt at each task, not sessions from incomplete attempts or additional attempts for already completed tasks.</p>	Numeric .N="Not Applicable"
<b>fstcomp_sessions</b>	Total Number of Sessions for the First Complete Attempt for Each Task	<p>Total number of sessions for the first complete attempts for each task.</p> <p>If the participant did not have a complete attempt for a task, that task does not contribute to the total.</p>	Numeric .N="Not Applicable"
<b>fstcomp_totalduration_ minute</b>	Total Time in Minutes for the First Complete Attempt for Each Task	<p>Total duration in minutes for this participant.</p> <p>This total only includes time from the first complete attempt at each task, not time from incomplete attempts or additional attempts for already completed tasks.</p>	Numeric .N="Not Applicable"
<b>tillcmp_attempts</b>	Total Number of Attempts Through the First Complete Attempt for Each Task	<p>Total number of attempts for all tasks combined, considering attempts for each task up through the first complete attempt for that task.</p> <p>If the participant did not have a complete attempt for a task, all attempts for that task are included in the total.</p>	Numeric .N="Not Applicable"

Variable	Label	Description	Format Text
<b>tillcmp_maxsessionlength_minute</b>	Maximum Session Length, Across all Tasks, Through the First Complete Attempt for Each Task	<p>Maximum session length for this participant.</p> <p>This maximum only considers sessions for a task up until an attempt at that task was completed.</p> <p>If the participant did not have a complete attempt for a task, then all sessions for that task are considered when determining the maximum session length.</p>	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_minsessionlength_minute</b>	Minimum Session Length, Across all Tasks, Through the First Complete Attempt for Each Task	<p>Minimum session length for this participant.</p> <p>This minimum only considers sessions for a task up until an attempt at that task was completed.</p> <p>If the participant did not have a complete attempt for a task, then all sessions for that task are considered when determining the minimum session length.</p>	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_sessions</b>	Total Number of Sessions Through the First Complete Attempt for Each Task	<p>Total number of sessions for all tasks combined, considering attempts for each task up through the first complete attempt for that task.</p> <p>If the participant did not have a complete attempt for a task, all sessions for that task are included in the total.</p>	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_totalduration_minute</b>	Total Time in Minutes Through the First Complete Attempt for Each Task	<p>Total duration in minutes for this participant.</p> <p>This total only includes time up through the first complete attempt at each task, and not time from additional attempts for already completed tasks.</p> <p>If the participant did not have a complete attempt for a task, the time for all attempts for that task is included in the total.</p>	Numeric .M="Missing" .N="Not Applicable"
<b>total_attempts</b>	Total Number of Attempts For All Tasks	Total number of attempts for all tasks combined.	Numeric

Variable	Label	Description	Format Text
<b>total_attempts_with_data</b>	Total Number of Attempts With Data For All Tasks	Total number of attempts with data for all tasks combined.  Almost all complete attempts and a portion of attempts that were started but not completed have data. Information on attempts without data comes from the tracking file.	Numeric
<b>total_maxsessionlength_minute</b>	Maximum Session Length Across All Tasks	Maximum session length in minutes across all tasks.	Numeric .M="Missing" .N="Not Applicable"
<b>total_minsessionlength_minute</b>	Minimum Session Length Across All Tasks	Minimum session length in minutes across all tasks.	Numeric .M="Missing" .N="Not Applicable"
<b>total_sessions</b>	Total Number of Sessions For All Tasks	Total number of sessions for all tasks combined.	Numeric .M="Missing"
<b>total_totalduration_minute</b>	Total Time in Minutes for All Tasks	Total duration in minutes for all tasks combined.	Numeric .M="Missing" .N="Not Applicable"

## Section 3: Task Summary

---

Variable	Label	Description	Format Text
<b>num_tasks</b>	Number of Tasks	Number of tasks for the participant, regardless of completion status.	Numeric
<b>num_tasks_complete</b>	Number of Tasks Completed	<p>Number of tasks with at least one complete attempt.</p> <p>A task is considered complete if the participant had an attempt where he or she entered activities in all 4 time periods and reported on at least 23 hours of time. A participant did not need to have clicked the finish button for an attempt to be considered complete. A complete attempt could include time where the participant said they did not remember what they did during that time.</p>	Numeric
<b>num_tasks_ever_falsestart</b>	Number of Tasks With at Least One False Start Attempt	<p>Number of tasks with at least one false start attempt.</p> <p>An attempt is considered a false start if the participant only entered activities in at most two of the four time periods.</p>	Numeric
<b>num_tasks_ever_incomplete</b>	Number of Tasks With at Least One Incomplete Attempt	<p>Number of tasks with at least one incomplete attempt.</p> <p>An attempt is considered incomplete if the participant entered activities in at least 3 of the four time periods, but reported on less than 23 hours of time.</p>	Numeric
<b>num_tasks_ever_known_falsestart</b>	Number of Tasks With at Least One False Start Attempt for Known Time	<p>Number of tasks with at least one attempt that is a false start when considering only time in which the participant reported known activities.</p> <p>An attempt is considered a false start for known activities if the participant reported known activities for less than 12 hours.</p>	Numeric

Variable	Label	Description	Format Text
<b>num_tasks_ever_known_incomplete</b>	Number of Tasks With at Least One Incomplete Attempt for Known Time	<p>Number of tasks with at least one attempt that is incomplete when considering only time in which the participant reported known activities.</p> <p>An attempt is considered incomplete for known activities if the participant reported known activities for at least 12 hours, but less than 23 hours.</p>	Numeric
<b>num_tasks_finish</b>	Number of Tasks Finished	<p>Number of tasks finished by the participant.</p> <p>A task is considered finished if the participant had an attempt where they clicked the finish button, and is not based on how much time the participant reported on.</p>	Numeric
<b>num_tasks_known_complete</b>	Number of Tasks Completed for Known Time	<p>Number of tasks with at least one attempt that is complete when considering only time in which the participant reported known activities.</p> <p>A attempt is considered complete if the participant reported at least 23 hours of known activities. A participant did not need to have clicked the finish button for an attempt to be considered complete.</p>	Numeric

## Section 4: Task Arrays

Variable	Label	Description	Format Text
<b>fstcomp_maxsessionlength_minute1-6</b>	Maximum Session Length for First Complete Attempt for Task [X]	Maximum session length in minutes for the first complete attempt for each task.	Numeric .N="Not Applicable"
<b>fstcomp_minsessionlength_minute1-6</b>	Minimum Session Length for First Complete Attempt for Task [X]	Minimum session length in minutes for the first complete attempt for each task.	Numeric .N="Not Applicable"
<b>fstcomp_num_sessions1-6</b>	Number of Sessions for First Complete Attempt for Task [X]	Number of sessions for the first complete attempt for each task.	Numeric .N="Not Applicable"
<b>fstcomp_totalduration_minute1-6</b>	Time in Minutes for First Complete Attempt for Task [X]	Time in minutes for the first complete attempt for each task.	Numeric .N="Not Applicable"
<b>has_act24_data1-6</b>	Has Data for Task [X]	Indicates if the participant has ACT24 data for each task.  Participants set to "yes" have data for that task, including 5 minute records and the summary data used to build the respondent files. Participants set to "ACT24 tracking record only" have a tracking record that says they began an ACT24 attempt for that task, but do not have any ACT24 data. Participants set to "no" do not have data and did not begin an attempt for that task.	0="No" 1="Yes" 2="ACT24 Tracking Record Only"
<b>num_attempts1-6</b>	Number of Attempts for Task [X]	Number of attempts for each task.	Numeric .N="Not Applicable"
<b>num_attempts_with_data1-6</b>	Number of Attempts with Data for Task [X]	The number of attempts with data for each task.  Almost all complete attempts and a portion of attempts that were started but not completed have data. Information on attempts without data comes from the tracking file.	Numeric .N="Not Applicable"
<b>ovrtask_maxsessionlength_minute1-6</b>	Maximum Session Length for Task [X]	Maximum session length in minutes for each task, considering all attempts.	Numeric .M="Missing" .N="Not Applicable"
<b>ovrtask_minsessionlength_minute1-6</b>	Minimum Session Length for Task [X]	Minimum session length in minutes for each task, considering all attempts.	Numeric .M="Missing" .N="Not Applicable"
<b>ovrtask_num_sessions1-6</b>	Total Number of Sessions for Task [X]	Total number of sessions for each task, considering all attempts.	Numeric .M="Missing" .N="Not Applicable"

Variable	Label	Description	Format Text
<b>ovrtask_totalduration_minute1-6</b>	Total Time in Minutes for Task [X]	Total time in minutes for each task, considering all attempts.	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_maxsessionlength_minute1-6</b>	Maximum Session Length Through First Complete Attempt for Task [X]	Maximum session length in minutes up through the first complete attempt for each task.  If the participant did not have a complete attempt for a task, then all attempts for that task are considered when determining the maximum session length.	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_minsessionlength_minute1-6</b>	Minimum Session Length Through First Complete Attempt for Task [X]	Minimum session length in minutes up through the first complete attempt for each task.  If the participant did not have a complete attempt for a task, then all attempts for that task are considered when determining the minimum session length.	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_num_sessions1-6</b>	Number of Sessions Through First Completed Attempt for Task [X]	Number of sessions up through the first complete attempt for each task.  If the participant did not have a complete attempt for a task, this is the total number of sessions for all attempts for that task.	Numeric .M="Missing" .N="Not Applicable"
<b>tillcmp_totalduration_minute1-6</b>	Time in Minutes Through First Completed Attempt for Task [X]	Time in minutes for all attempts for each task up through the first complete attempt for that task.  If the participant did not have a complete attempt for a task, this is the total time for all attempts for that task.	Numeric .M="Missing" .N="Not Applicable"
